

10th Annual Art Show & Silent Auction
Celebrating 10 Years of Latina Art & Education

Curator – William Campbell

I began my artistic career by graduating from Texas Christian University in 1969, with a degree in Fine Art, with sculpture as my major emphasis. During my college studies, I worked at the Fort Worth Art Museum as an assistant preparator of exhibitions. After being drafted and serving in Vietnam, I moved to Dallas and worked in advertising until moving to Fort Worth and opening Gallery One, in 1974, now William Campbell Contemporary Art, Inc.

In the past thirty-nine years, my wife (and partner in the business) and I, have staged approximately four hundred solo and group exhibitions. The primary focus of the gallery is to exhibit and promote contemporary artists from across the country and we represent two German artists. The gallery promotes about thirty-five artists on a regular basis, working in a variety of mediums. The majority of the artists are mid-career veterans of the art business and university art programs. Many are nationally recognized and many have had international exposure, while a few are emerging. We are proud to say that many of these artists are in major museum collections as well as prestigious private and corporate collections.

Juror for exhibitions:

University of North Texas, Denton Texas
Texas Christian University
